LOADING ARM APPLICATION DATA SHEET

						Enq Ref No.:-		
						Date:-		
						Qtn Expected Date:-		
1	**Customer Data:**							
	Company Name :							
	Address:							
	Contact Person:							
	Tel Nos.:					**Fax Nos.:**		
	E-mail:							
2								
	Location:		Country:			Site:		
	Ambient Temperature (Deg C/F.)		Min.			Max.		
	Environment		Humid			Corrosive		Sea Side
3	**Loading Arm data:**		Desired size of loading arm-					
	Road Tanker		Loaded			Unloaded		
	Railway Wagon		Loaded			Unloaded		
	No. of loading arms							
	Product Supply to loading arm		From top			From bottom		From side
	Balancing Unit	spring balance				Dead weight		Pneumatic
4	Material					Seal Material		
	Drop pipe							
	To be in contact with bottom during loading					YES		NO
	Drop pipe spout 45º					YES		NO
	T-type?					YES		NO
	Transfer operation will be					OPEN SYSTEM		CLOSED SYSTEM
	Connection Points							
5	**Accessories required:-**							
	Closing Valve							
	Remote Control							
	Automatic Vacuum breaker							
	Overfill protection system							
	Coupling	Break Away coupling	YES		NO		Detail:	
		API coupling	YES		NO			
		OR						
		Cam and Lock Coupling	YES		NO			
	Heat Jacketing					Yes		NO
	If yes by which method					↑ Steam	↑ Hot oil	↑ Electric
6	**Product Data Name**							
	Ambient temperature(ºC)							
	Operating temperature(ºC)					Design temperature(ºC)		
	Operating pressure(bar, kg /cm2, psi)					Design pressure(bar, kg /cm2, psi)		
	Flow capacity(max) (m3/hr							
	Density (kg/dm3)							
7	**GST NO**							
	PAN No.
