Format No: S&S/F/13 Rev.01
Dated : 15-08-2024
Initial Issue Date: Nov.2017
Number Of Pages : 1

SWIVEL JOINT APPLICATION DATA SHEET

					Enq Ref No.:-			
					Date:-			
					Qtn Expected Date:-			
1	**Customer Data:**							
	Company Name :							
	Address:							
	Contact Person:							
	Tel Nos.:				**Fax Nos.:**			
	E-mail:							
2	**Installation Data Sheet:**							
	Location:		Country:		Site:			
	Ambient Temperature (Deg C/F.)		Min.		Max.			
	Environment		Humid		Corrosive		Sea Side	
3	**Product Data Name:**							
	Description of product handles				Concentration			
	Specific Gravity				Operating Pressure:			
	Viscosity (CST)							
4	**Design data:**							
	Design Pressure						kg/cm2./Psig	
	Normal operating Pressure						kg/cm2./Psig	
	Constant		Variable			Vacuum		
	Flow rate (m3/hr)						LPM / GPM/ M3/Hr.	
	Design Temperature						deg C/F	
	Normal operating Temperature						deg C/F	
	Constant			Variable				
5	**Preferred Style of Joint (10,20,30,40,50,60,70,80):-**							
	Size:		style		90˚		180˚	
6	**End connection Desired** **150# / 300# / 600#** (Either Flanged/Threaded/Butt welded/Plain or Combination)							
7	Preferred material of construction							
8	**Mechanical Constraints**							
	a) Self & Product weight only							
	b) Applied bending movement ,axial thrust, shear load							
	c) End connections rigid /flexible						yes/no	
	d) Continuous rotation						rpm	
	e) Constant Oscillation						cycles per /day	
9	**Will joint be subjected to submerged conditions? Yes/No If so, what is**							
	External Product				Max. External Pressure		kg/cm2g /PSIg	
10	**QTY:-**							
11	GST No							
	PAN No.
